QUIT WILLIAMS

HEARST AND HARRISON FORCED TO JOIN HANDS IN ILLINOIS DEMOCRATIC CONVENTION.

WILL FIGHT HOPKINS

Deal Made Whereby Harrison Faction Which Has Half of Delegates at Large Will Vote for Instructed Hearst Delegation—Candidates for State Offices Lost Sight of in Struggle for Party Control.

Springfield, June 14.—The plan of John P. Hopkins of Chicago and the majority of the members of the State Central committee to make Frank P. Quinn temporary chairman of the Democratic state convention which meets to-day has forced the Hearst and Harrison factions into an alliance, defensive and offensive. The deal is advantageous to the Harrison people, for while they have about one-fifth as many delegates as Hearst, they are to have half of the delegates at large to the national convention and an equal voice in naming the candidates for the state offices, providing the alliance is able to control the convention, as the leaders express their confidence in doing. The Harrison people on their part have agreed to vote for an instructed Hearst delegation and to the withdrawal of Congressman James R. Williams from the presidential race.

The situation was made more complex this morning by an announcement from Congressman Williams that he was not inclined to withdraw. There is talk of two conventions to be held in the same hall in the event of the Hopkins people being able to prevent roll call. It is certain that Hearst and Harrison control the convention if they ever get a roll call, and it is equally sure that Hopkins will rule as long as he prevents a roll call.

The struggle for party control has become so keen that the nomination of state officers has become a secondary matter, and nobody at present is paying much attention to the seekers for office.

Convention Opens.
The convention was called to order at noon and State Chairman Hopkins introduced Quinn as temporary chairman. Quinn ordered the roll call of districts for caucus selections for committees. During the call a delegate from the Third district shouted: "There is a contest in the Third district." The chairman paid no attention and the shout was taken up and the Third district people worked themselves up to a frenzy. The chairman, however, quietly ordered the roll continued and immediately after the call the convention took a recess until 3:30.

CHINESE CUT OFF QUEUES

Yellow Subjects of Great Britain Decide That Pigtail is Badge of Servitude.

Singapore, June 14.—The Chinese British subjects in Kwalalumpur have decided to abandon a custom that has been in vogue since the Fifteenth century—that of wearing queues.

This action was taken at a public meeting which was called to consider the matter.

The session was a most excited one, but it was soon clear that the majority were in favor of the progressive plan.

The chief argument which the speakers advanced was that the queue was a symbol of slavery, inferiority and degradation, and that it marked them as of an inferior race to their fellow British subjects and invited contumely and suspicion.

RUSSIA ADOPTS U. S. ARMY TENT

Orders have been telegraphed to Manchuria to equip as ponchos, the ordinary tents in use now, so as to protect the men from rain during day without impeding their movements and afford them shelter at night.

It included a stamp press capable of making 500 coins an hour, a portable forge, engravers', carpenters' and blacksmiths' tools, a safe filled with coins and a large quantity of loose counterfeit fraction silver and nickels.

NO BREAK

OCEAN LINER HAS CONTINUOUS WIRELESS COMMUNICATION WITH SHORE THROUGHOUT VOYAGE.

A WONDERFUL ACHIEVEMENT

Marconi Conducts Daily Paper on Board Steamer Compañia in Mid-Ocean for Two Days in Communication with Both Continents—Prominent Scientists Witness to Marvellous Demonstration.

New York, June 14.—The complete success of the first ocean daily newspaper and the maintaining of wireless communication with both shores of the Atlantic for two days was the news brought by Signor Marconi, arriving Sunday on the Campania.

Two days out of Liverpool communications with both shores were established—from Cape Breton, Canada, 2,000 miles west, and Poldhu, Wales, 854 miles east. Throughout the voyage those communications continued unbroken until the 8th, when Poldhu, 2,205 miles east, was dropped. It was on June 6 that the first mid-ocean Marconi newspaper was published.

Not only foreshadowing a complete change in the system of news transmission, the reception of the 750 copies of the daily paper indicates that when in the near future a transmitting apparatus is installed with equal power each steamer will become so linked with the shores that banking, buying and selling, speculating on the races and in the stocks will become general abroad ship.

Marconi sailed from Liverpool on the Campania June 4. With him, to attend to the birth of the first mid-ocean newspaper, were Sir Herbert Ashman, director of the Cunard company; W. E. Johnson, manager and director of the London Daily Express; J. E. Peats of the Daily Mail; Kaufman C. Spiers of the London Central News company, and two lieutenants representing the British admiralty.

LOT WELL ORGANIZED

Accused by Revolutionists of Selling Out to France—Uprising General and Sultan Has No Force to Cope with It—Pedicaris Soon to Be Released by Moorish Bandits—Sultan Accepts Terms.

London, June 14.—The Tangier correspondent of the Times says: "A well organized plot to depose the Sultan exists throughout Morocco. It has no connection with the late rebellion but originated with the religious and educated classes and is supported by many shereefs and others influential persons, including members of the Moorish government."

"The Sultan is cognizant of the proposed revolution and may be obliged to leave Fez because he has not the forces to withstand such a universal rising."

"The revolution was arranged before the terms of the Anglo-French agreement were known but that adds fuel to the fire, as the Sultan is now accused of selling the country to France."

"The conspirators have no fixed plans beyond deposing the Sultan and the government, which they believe would postpone the dangers now threatening Morocco."

TERMS SETTLED WITH BANDITS.

Tangier, June 14.—The British minister here confirms the reports that nearly all of Raisuli's terms for the release of Pedicaris and his stepson have been granted by the Sultan of Morocco, whose reply has been forwarded to Raisuli. The minister was very guarded in his statements and was unable to say more until the captives are liberated.

SCORES CRITICS

GOVERNOR PEABODY MAKES A STATEMENT OF THE REASONS FOR DEPORTING MINERS FROM CRIPPLE CREEK.

NECESSARY FOR PEACE.

Colorado Governor Sends Hot Replies By Wire to Critics of Treatment of Union Men by Colorado Authorities—New York Paper and Kansas Labor Organization Get Information.

Denver, Colo., June 14.—In reply to two telegrams received by Governor Peabody on his action in deporting the Cripple Creek miners, characteristic replies were sent. Following is the correspondence:

New York, June 12, 1904. "Governor James H. Peabody, Denver, Colo.:

"Will you not telegraph to the World a statement of your reasons for permitting Colorado troops to dump ninety-one union miners on the Kansas prairie, miles from habitation. No explanation of this action has reached the east. What evidence against the men justified such action? Under what Colorado laws were they banished? Please wire at our expense.

"THE WORLD."
Governor's Answer.

"Denver, June 13, 1904. "The World, New York City:

"Answering your telegram, the reason for deporting strikers and agitators from Cripple Creek was the dynamite outrage of June 8, whereby fourteen non-union miners were instantly killed and the subsequent street riots and killing of two non-union miners by the same element. Suitable provisions sent on same train with agitators. No cases of hunger or suffering reported. The constitution of Colorado commands the suppression of insurrection by such means as may be necessary. The statement published from headquarters Western Federation of Miners to the effect that present strike was called by referendum vote and for the purpose of establishing eight-hour day erroneous and false. The strike was arbitrarily called by the executive committee of the Western Federation of Miners and protested against by three-fourths of the miners in the Cripple Creek district. The eight-hour day had been established and recognized for ten years past and employer and employed were satisfied and working in harmony. Rioting, dynamiting and anarchy has had its day in Colorado.

"JAMES H. PEABODY."
Governor.

Query and Reply.
"Kansas City, Mo., June 13, 1904. "Governor Peabody, Denver, Colo.:

"The industrial council of Kansas City, Mo., in regular session assembled at this date, condemns your action in the treatment of the working men and women of Colorado, as unamerican, uncivilized and barbarous in the extreme. Russia in its darkest ages would blush with shame.

"INDUSTRIAL COUNCIL."
"J. J. HUCKETT, Secretary."

"J. J. Hockett, Secretary Industrial Council, Kansas City, Mo.:"
"The fact that your council indorses the assassinations, train wrecking and dynamiting by the lawless element in the Cripple Creek district but proves the necessity for my present action in suppressing all such from the soil of Colorado. Become wise before you attempt to teach.

"JAMES H. PEABODY."
"Governor."

ENGLAND MAY LOSE WEI HAI WEI

London, June 14.—It appears from a question and its answer in the house of commons today that the fall of Port Arthur will mark the end of British tenancy of Wei Hai Wei on Shan Tung promontory. Earl Percy, under foreign secretary, informed the house today that under the Anglo Chinese convention of 1895, Great Britain's lease of this Chinese port was only valid so long as Port Arthur remained in occupation of Russia.
